

INDUSTRIALAIR

WHERE CLEAN AIR MATTERS

Product Overview

IA-35 | IA-58 | IA-118 | IA-118-DP

APPLICATIONS

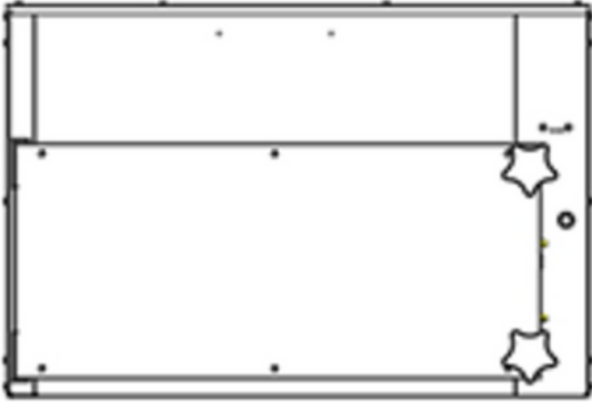

- Swiss Machining
- CNC Sawing
- CNC Grinding
- Rotary Transfer
- Multi-Spindle Screw Machining
- Gear Cutting and Hobbing
- Coldforming
- Threading
- Centerless Grinding

FEATURES

- Electrostatic Filtration
 - Up to 99% efficiency on 0.3-micron particles
 - Low energy consumption
 - Reusable aluminum filters
 - Coolant returned to machine
- Vertical and horizontal orientation
- Easy Installation
- Extremely low lifetime cost
- Best service and support

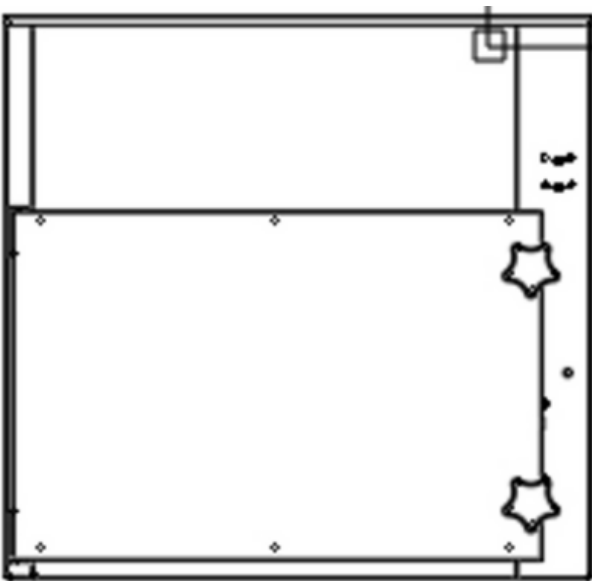

IA-35

- 350 CFM: for machines with cabinets up to 2100 cubic feet
- Small footprint: 2.62 square feet
- Low energy usage: 0.18 kWh
- High Efficiency: 95% efficient down to 0.3 microns

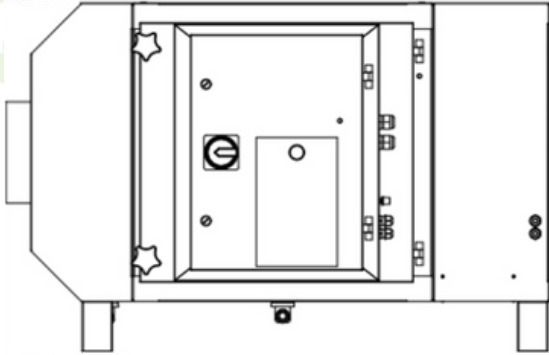

IA-58

- 580 CFM: for machines with cabinets up to 3480 cubic feet
- Small footprint: 2.62 square feet
- Low energy usage: Less than 0.28 kWh
- High Efficiency: 99% efficient down to 0.3 microns by using double-pass filtration

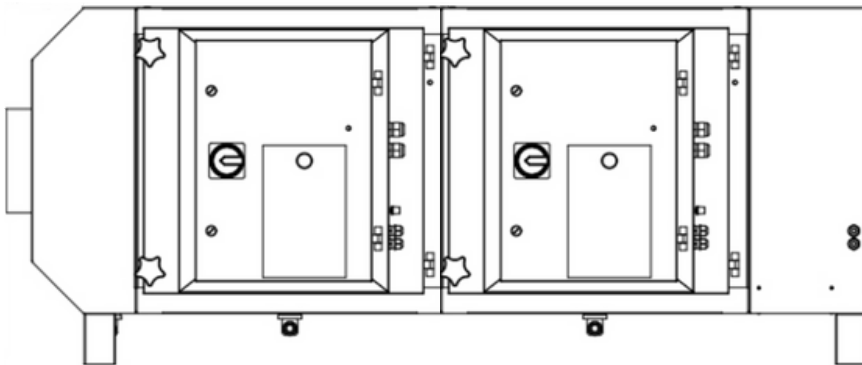

IA-118

- 1180 CFM: for machines with cabinets up to 7080 cubic feet
- Low energy usage: Less than 0.39 kWh
- High Efficiency: 95% efficient down to 0.3 microns

IA-118-DP

- 1180 CFM: for machines with cabinets up to 7080 cubic feet
- Low energy usage: Less than 0.40 kWh
- High Efficiency: 99% efficient down to 0.3 microns by using double pass filtration.
